

Dear Healthcare Professional,

MedWeb Fertility is a scientific program consisting of scientific presentations organized and hosted twice a month by the EMD Serono Medical Affairs team via webcast. These webinars are open to staff and healthcare providers from all IVF Clinics and healthcare providers who are interested in discussing basic and advanced scientific topics, up-to-date information and innovation in the field of Fertility and ART.

A certificate of attendance can be provided for those who are interested in documenting their participation in the sessions. No continuing education credits will be provided.

In the table below, you can find the MedWeb schedule & topics to be presented from January through December 2022.
